INDEX

INTRODUCTION

- A registration form is a list of field that a user will input data into and submit to a company or individual. There are many reasons why you would want a person to fill out a registration form. Compaines use registration forms to sign up customers for subscription ,services ,or other programs or plans.

- Registration froms on landing Pages are very important and should be optimized in order to encourage the users to sign up for your email list, product, subscription or service.

ACKNOWLEDGEMENT

- I would like to express my special thanks of gratitude to my computer science teacher "Mr. Abhinav Sharma " for their able guidance and support in completing my project.I would also like to extend my gratitude to the Principal Mam "Dr.ANJU Batta Sehgal ''for providing me with all the facility that was required.

ADVANTAGES
OF
REGISTRATION FROM

- 1.Time- Online registration allows the attendee to register when it is most convenient for them. It is important for the organizer to estabilish specific open and close dates, giving your registrants ample time to complete the registration.

- *2.Data Management-* Having attendees register online also provides the organizers with the data that they need to have on-file for their guests. If it is necessary to have a credit card on file for hotel room payment, this is the best and safest way to obtain the inform.

- 3. Reporting- Online registration gives the opportunity to ask detailed questions about the attendee. Depending on what kind of event you are hosting, it could be important to gather demographics such as age, gender, occupation, etc.

DISADVANTAGE
OF
REGISTRATION FROM

- 1.Addication,time-waster,and causes distraction.

- 2. Bullying, trolls, stalkers,and crime.

- 3.Spam and advertising.

- 4.Never being able to disconnect from work .

- 5.Identity theft, hacking, viruses,and cheating.
